

please read slowly

seeking insight on the journey

recognizing everything is connected,
there is a
oneness, wholeness, unity of all creation;
at a very deep level,
a heartfelt level.

light within, pervading, all creation,
earth, self, all life spirit, ...
and,
interacting, humbly, from that place,
friends help each other learn and grow,
in ways that nurtures earth, self, all life spirit,

“great spirit” ...

sense of the meeting,
sense of unity decision making.

this understanding emerges
from ancient indigenous peoples
of peace.

it is from this place of
spiritual unification
that true, &
effective, compassionate action,
and peace emerge.

spiritual unification (light within ... + sense of the meeting ...)
is the process that sees humanity through these challenging times
we are now experiencing.

*what do friends, friends seeking what is true,
quakers, have to contribute, discover, learn? *
how do we actually make our contribution (s) ?
